URGENT NEED FOR POULTRY
The President's late proclamation, in which he urges redoubled efforts in the production of food products, seems to be a direct call to the poultryman.

Probably never before has there been such an opportunity. The food supply of the world is short, and it is up to the people of this country to supply not only our own needs but food in enormous quantities to European countries.

Whoever engages actively and heartily in increasing the food supply stands to reap large profits on his labor. More than this, he is engaged in a genuine act of patriotism, just as truly as if he enlisted in the Army or Navy.

Food, and particularly the meat products, must be produced promptly. Here the poultryman has a great advantage because, of all the meat products, poultry can be produced most quickly and cheaply.

The American Poultry Association, taking the lead in this patriotic duty, has sent out an appeal to poultrymen and farmers everywhere, asking that an extra hundred million pounds of poultry be produced this year.

It should appeal to all—town people as well as country people—everybody who can raise even a few chickens.

Quick production is what is wanted. Small broilers can be produced in six weeks, large broilers in twelve weeks, layers and roosters in from four to eight months.

Town people will be well rewarded for the pains they take. A dozen hens can be kept in the back yard. A cheap shelter can be quickly built—thousands of town people use nothing better than a piano box. Scraps from the table, lawn clippings and garden waste will go far toward supplying the feed. The eggs will be a big item in keeping down the high cost of living in your own family. Don't kill a laying hen, but market the surplus males after the hatching season.

Many poultrymen are this year making a point of prolonging the hatching season. The president of American Poultry Association urges that hatching be continued all May and June and also during July in large part of the country. "Let the hen do her part. Fill up the incubators. Keep them going through May and June. The results will be worth while. Let us be prepared to consume every bit of table and kitchen scraps and make them a source of profit."

BAD STOMACHS BUSINESS FAILURES

In this day of high efficiency more failures are due to disordered Stomachs than to any other cause. Nothing undermines the body and mind so quickly as Stomach Trouble. It saps the energy and reduces ambition and vitality to a low ebb. Cathartics frequently aggravate the trouble. Overcome quickly your Stomach, Liver and Intestinal Trouble with May's Wonderful Remedy, as it reaches the seat of the disease. Millions have been restored by it. Let one dose of May's Wonderful Remedy convince you today. For sale by The Lincoln Pharmacy and The Penny Drug Store.

C. O. SHOOTING TOURNAMENT

The first annual tournament of the Crab Orchard Gun Club will be held at Crab Orchard Springs July 4 and \$125 will be given away in prizes and trophies. Emile Pragoff, of Louisville, who has had much experience in the conduct of shooting tournaments, will be in charge and a great time is expected. Some of the classiest clay pigeon shots in the whole country will be at Crab Orchard to contest for the prizes.

THE FORWARD LEAGUE

A secret meeting of the Forward League was held in Harrodsburg the last of the week. After asking four men whom we had positive proof were present and all denied any knowledge of the gathering we gave it up as a bad job and reached the conclusion that they wished no publicity on the course of action as outlined. It is understood a similar meeting was held in Stanford.—Harrodsburg Democrat.

THE FARMERS OF THE COUNTRY ARE IN COMPLETE CONTROL OF THE SITUATION

This year and next will be the biggest the farmers have ever had. Heretofore the farmers have been at the mercy of the speculator. Today the farmer is in complete control.

One and only one danger threatens him. It is the danger of scarce and high money. High money will not hurt. He can stand high money. His profits are large. His danger is scarce money and no money. Our first duty is to our country. Our government must be financed. The people should and will do it. The money loaned to the Government, whether by purchase of bonds or certificates, is withdrawn for the present at least from the available cash to be loaned to other people, including, of course, farmers.

Last week call money in Wall Street jumped to 6 per cent. more than double the rate in April and nearly four times the rate in February 1916.

Mark my prediction—Before January 1st, 1918, the farmers of the country will be scrambling for money on any terms.

In view of all this, we are making farm loans on the same liberal terms as heretofore; no increase, no changes. But nobody knows what tomorrow may bring forth. Today is the only day we can promise. No financial concern is making promises for any other day than today. If the money you owe now is soon due and it takes all your this year's surplus to pay your debt, what are you going to do to start next year's crop with; buy stock and run your farm? Are you sure that money will be plentiful next year, or the next or for years to come? Are you sure you can borrow from your neighbor, or your bank at a low rate of interest, on easy terms, on long time? Two of the Insurance Companies have already withdrawn from the loan field, until after the War; others may follow.

If you need money to pay off your notes, if you need money to operate your farm, if you are in debt, or if you want to buy more land, and want money on easy terms with attractive payments, protecting you against war prices or depressions in the money market, I would like to talk to you? It costs you nothing to investigate. Call and see me, drop me a line, or telephone me.

REPUBLICANS MAKE FIGHT

That the Republicans of the Eighteenth senatorial district will put up a strong fight to elect a member of the upper branch of the Legislature is now assured. J. A. Blain, a well-known Republican of Lincoln county, is the first to offer for the nomination of his party, and it is said that his candidacy has been endorsed by the district G. O. P. leaders.

The Democratic senatorial fight has stirred up some bitterness, and the Republicans, it is said, are relying on this in the hope of success at the general election.—Louisville Times.

The Times was never more mistaken. No bitterness has resulted from the race and very little interest has been shown in it so far.

VERNON THOMPSON KILLED

Vernon Thompson, son of Mr. and Mrs. J. Booth Thompson, formerly of Lancaster, was killed in a mine disaster near Butte, Mont., according to information received here. He was about 21 years old and prominently connected. Young Thompson was a nephew of Robert E. Thompson of Crab Orchard.

WILLIAM III HAS A BOND

Mr. W. H. Higgins has a letter from his son, Dr. W. Harry Higgins, of Richmond, Va., saying that his 11 months old son, W. Harry Higgins, III, is the proud possessor of a Liberty Loan Bond.

THE EVILS OF CONSTIPATION

Constipation is one of the main reasons why the average human life is below 40 years. Leaving waste material in the body, poisons the system and blood and makes us liable to sick headaches, biliousness, nervousness and muddy skin. When you note these symptoms, try Dr. King's New Life Pills. They give prompt relief, are mild, non-gripping in action, add tone to your system and clear the complexion. At your druggist, 25¢.

MARRIAGES

Lester Dishon, aged 23, and Miss Gertrude Woods, sweet sixteen, were made one at Simon Peter's on the 20th.

Garret Alford, aged 21, and Miss Berry Marlow, 17, were married at the court-house Thursday by Judge James P. Bailey.

Luke Irwin and Miss Lucy Cheek, both of the Bee Lick section, were joined in wedlock's holy bonds by James P. Bailey at the court-house.

Cecil Saxby and Miss Kathryn Grinstead went to Winfield, Tennessee, Sunday, where they were married. Young Saxby is the son of Rev. H. S. Saxby, pastor of the Christian Church, and the bride is the accomplished daughter of Mrs. William Grinstead, of this city. To this young couple The News extends best wishes for a long and happy wedded life.—Somerset News.

A wedding of unusual interest to their many friends both in this country and Lincoln was the marriage of Miss Cora Perkins, of this county, to Mr. Frank Phillips, of Stanford. The happy couple took the early morning train for Louisville Wednesday and were married in that city last night. The bride is the lovely and attractive daughter of Mrs. Emma Daniels and is exceedingly popular in this country. Mr. Phillips is the junior member of the firm of Phillips & Phillips, of Stanford, and is a splendid young business man. On their return from a short bridal trip they will be at home to their friends in Stanford.—Lancaster Record.

Miss Johnnie Azbill and Mr. Stewart Carson, of Stanford, who were to have been married on Saturday, stole a march on their friends and were married Friday night at the home of Rev. E. B. Barnes, who performed the ceremony. On Saturday Mrs. Walter Azbill and Mrs. Sallie Cornelison gave a pretty luncheon for the bride and groom and a few of their friends who had expected to be present at the wedding, including Misses Marie Louise Deatherage, Mary Allen Deatherage, Nancy Shearer, Margaret Azbill and Jeanetta Robinson, of Winchester, and Messrs. William Burnam, Delbert Axbill and Tom Landrum, of Louisville. After the luncheon Mr. and Mrs. Carson left for Cincinnati to spend several days before going to Stanford to make their home. The bride is one of the most attractive girls of the younger set and her many friends regret to have her leave but wish her the greatest happiness in her new home. Mr. Carson is a promising young business man of Stanford and has a host of friends both there and in Richmond who extend congratulations and good wishes.—Richmond Climax.

At the home of Dr. and Mrs. D. M. Walker in Shelbyville Wednesday, Mr. Frank Phillips, of this city, and Miss Cora Perkins, of Garrard county, were pronounced husband and wife. Dr. Walker officiated and the ceremony was as beautiful as it was impressive. The contracting pair, accompanied by Mr. and Mrs. William O. Martin, of this city, motored to Shelbyville, leaving Stanford at an early hour Wednesday morning. After the marriage they went to Louisville, where that night Mr. and Mrs. Phillips took a train for Chicago, where their honeymoon is being spent. They will return to Stanford in a few days and until they go to housekeeping will be at the home of Mr. and Mrs. W. K. Warner and Portman avenue. The groom is one of Stanford's biggest and best merchants. He is a member of the firm of Phillips & Phillips, a business establishment with a reputation second to none in this section of Kentucky. The bride is a daughter of Mrs. Emma Daniels, of Garrard county, and is a very charming young woman. She is handsome and cultured and very popular. Stanford people are glad to welcome her to the city and will do all in their power to make her life here happy one. The boys will give Mr. Phillips a rousing reception when he returns with his bride, when the glad hand of his legion of friends will be extended him and his.

MINERS GETTING GOOD PAY
Dick Hocker is down from Pittsburgh, and while in the county he will visit his sister, Mrs. W. O. Speed, at Hustonville. Mr. Hocker, although a cripple, having lost a leg a number of years ago, is a coal miner or "digger," and has been at Pittsburg off and on for a long time.

He told the I. J. this morning that he had never seen work in his line pay as well. Said he: "It is nothing unusual for the best miners to make \$13 to \$14 per day digging coal. I can easily make \$4 to \$5. It is true that we do not get to work every day, but most of us get all the work we are looking for. We get \$1 per ton for mining, which of course, is run of mines." Mr. Hocker says that there is a wonderful scarcity of hands and that any sort of a man can get a good job by applying to the Pittsburg mine operators. Lee Caldwell, formerly of Danville, but for the last decade a mine operator at Pittsburg, is opening a new mine at Hazel Patch and is experiencing much trouble in getting men to work in it. Mr. Caldwell is very popular with the miners and if anybody can get help he can. "He told me," continued Mr. Hocker, "that he must have 25 men at once and I promised to do what I can to help him out. If you know any people who want to make good money, have them communicate with Mr. Caldwell," said he.

DISPOSES OF THREE CASES

Judge James P. Bailey disposed of three cases in his court Thursday. Newman Patton, colored, caught a fine of \$5 with costs, making \$18.75, for permitting his stock to run at large in the West End. Charley Peck, of the Green river section, caught a similar fine for a similar offense. Floyd Morgan, charged with Breach of the peace, was fined \$30 and costs. He is laying out his fine in jail.

IN THE RACE TO STAY

Hon. J. R. Mount, of Lancaster, writes that the report that he has or will withdraw from the race for State Senator is absurd. He entered the race on his own volition, is making his fight single-handedly and no man nor set of men is authorized to say what he must do or is going to do.

J. R. HARRIS HAS SEDAN

That is a handsome car, of the Sedan type, that Mr. J. Randolph Harris is sporting just now. He bought it of Henry Ford Anderson, who on Wednesday received another shipment of the ever popular Fords.

CARING FOR THE FLAG

Jailer DeBorde is taking good care of the big flag that floats from the 100-foot pole in front of the court-house. He has it taken down each evening and in order to keep it from getting wet, has it lowered whenever it looks like a downpour is coming. His thoughtfulness is highly appreciated.

ALL IN READINESS FOR MASONIC CELEBRATION

All roads will lead to Crab Orchard Saturday and if the weather is anything like good, all of them will be full of people going to the Masonic Celebration. It is expected that at least 5,000 people will be present, but in order that all may be cared for in the event the crowd exceeds that number Caterer Jesse C. Lynn has made preparations to feed 6,000. The big kettles belonging to Gus Jaubert, of Lexington, have been secured to make burgoo in and tonight fires will be started under those kettles containing 1,000 gallons of the rich juice. Over 3,000 pounds of beef has been received for burgoo and barbecued meats, while chickens and other "ingredients" for burgoo, which is exclusively a Kentucky dish, have been laid in in big installments. Two barrels of tomatoes will be required to season the burgoo, while bread to eat with it has been ordered by the thousands of loaves. The "eats" will be a great feature of a great day. The dinner will be served under the big shade trees back of the Springs and a table something like a quarter of a mile long has been arranged.

Smittie's Military Band, of thirty-five pieces, admittedly the best band in Cincinnati, will be the official band of the day, but there will be several others, the most interesting of which will be the one composed of boys from the Masonic Orphans' Home in Louisville. The Stanford Glee Club will entertain with patriotic songs, and Miss Kate Warriner, of Hustonville, whose wonderfully sweet voice has thrilled thousands, will favor the throng with several solos.

The ceremonies will be opened with prayer by Rev. Stephen B. Lander, of Bloomfield, Grand Chaplain of the Grand Lodge, after which our own Hon. James N. Saunders, Grand Master of the Grand Lodge of Kentucky, will make the welcome address. After Smittie's Band has played "The Star Spangled Banner" Hon. G. Allison Holland will deliver an address. Mr. Holland is an extremely pleasing speaker and something good many be expected from him. The rest of the program will be carried out as stated in Tuesday's I. J.

On arrival of the excursion trains from Middlesboro and Louisville the craft will assemble at Masonic Hall, where all will register and be given distinguishing badges. The procession will form in front of the Lodge Room, which is over Lyne Bros. Drug Store, and headed by Smittie's Band, will march down Stanford street, and crossing that street, will head East and then North to the Springs. Lexington Lodge No. 1 will follow next to Smittie's Band, thence the regular Masonic line, interspersed with Bands. The Grand Lodge Officers and the officials of the Masonic Widows' and Orphans' Home, will bring up the rear, led by the children from the Home and the little boys' brass band.

The little city of Crab Orchard has been dressed up for the occasion while the Springs' buildings and grounds have been profusely decorated with flags and bunting. Great preparation has been made for the day on which the 200th anniversary of Masonry is to be celebrated and as that day is tomorrow, the last word has been said and Crab Orchard citizens one and all are impatiently awaiting the dawn of the day which will

MISSIONS TO THIS COUNTRY

The coming of missions from various governments of the world to the United States constitutes one of the promising passages of the war's bleak record. The missions from England, France, Italy, Belgium and Japan, and our mission to Russia cannot fail to serve as ties of affinity if not affection between those peoples and our own. These high official representatives of the several governments will gather such impressions of the aims and purposes of this government as shall aid in bringing the war to an end and in making and enduring peace. If this is not a logical result of the visit of the delegations that have journeyed from afar to this country they will have been sent in vain.

Former Senator E. E. Hogg, of Booneville, has entered the democratic primary in the 34th district against Senator C. D. Arnett, who is seeking a re-nomination.

MOTHERHOOD WOMAN'S JOY

Suggestions to Childless Women.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is the ability to correct sterility in the cases of many women. This fact is well established as evidenced by the following letter and hundreds of others we have published in these columns.

Poplar Bluff, Mo.—"I want other women to know what a blessing Lydia E. Pinkham's Vegetable Compound has been to me. We had always wanted a baby in our home but I was in poor health and not able to do my work. My mother and husband both urged me to try Lydia E. Pinkham's Vegetable Compound. I did so, my health improved and I am now the mother of a fine baby girl and do all my own house work."—Mrs. ALICE B. TIMMONS, 216 Almond St., Poplar Bluff, Mo.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential and helpful.

SUNDAY CLOSES IN N. Y.

Billy Sunday has just closed in New York the greatest campaign in his remarkable career as an evangelist. He is credited with making 98,264 converts—popularly known as "trail-blazers." On the final day, 7,228 persons "hit the trail." This was the largest number recorded for one day.

Here's a feature of Sunday's New York campaign, which will appeal to many who say they do not like his methods for "winning souls." He is going to divide the free-will offering of \$114,000 made for his benefit between the American Red Cross and the Y. M. C. A. organizations which are working among soldiers and sailors during the war.

Records at all other cities were eclipsed in New York. Boston was the city where Sunday made his best previous record. There they gave him \$54,000 and there were 48,903 trail-blazers.

His farewell service in New York was attended by a crowd estimated at 24,000, who shouted "good-byes" while Billy told them he did not want to go.

"I don't want to go!" shouted Billy. "Let me have one last look."

At the close a telegram from Gov. Whitman was read. It was: "The people of New York City and State recognize and appreciate this great service you have rendered."

At the final service many hundreds were in tears and many women seized and kissed Sunday's hands. The plea for the free-will offering, which will be used for the benefit of soldiers and sailors, was made by James G. Gerard, who was Ambassador to Germany, and who was given a great ovation.

PASS BILLION DOLLAR MARK

For the first time in American history ordinary receipts of the Treasury have passed the billion dollar mark in a fiscal year.

The great sum has been anticipated, however, in the plan for raising war revenues and it does not alter the Administration's plan for taxation as all the available money from all sources will be needed.

Up to Wednesday the total was \$1,015,381,817, as compared with \$660,400,953 a year ago, an increase of approximately \$355,000,000.

The bulk of the huge increase is due to increased income taxes and earlier payments. A total of \$294,966,287 has been collected thus far this fiscal year. The next largest item is from other internal revenue totaling approximately \$425,000,000 an increase of about \$60,000,000 over last year.

Customs receipts show a total thus far of \$217,578,408, an increase of approximately \$14,200,000.

MIDDLEBURG

Mrs. W. C. Roberts came down to Middleburg last week to spend a week or two with her father and mother, Dr. and Mrs. Haney.

Miss Ruby Lee Fogle went to Verona, Ill., to take a special teacher's course.

Russell Brown was here from Liberty Saturday advertising his insurance business.

Mrs. C. C. Jones went to Hustonville Saturday to see her mother, Mrs. E. J. Godfrey, who is in feeble health.

At present we are staying at the house for a week or more with rheumatism.

Our townsmen, J. R. Cooper can lay claim to being the boss fisherman of this section. He landed a 22 1-2 pound cat a few days since. It was of the yellow cat variety and the largest that any one remembers having been taken from the river here. N. C. Hicks caught one of the same variety some five years ago that weighed 16 pounds.

We are beginning to think that 1917 will go down into history as a year without a summer. Overcoats were not the least burdensome Friday and Saturday.

Rev. C. D. Chick, pastor of the Baptist church seems determined that the church shall be organized for work. In addition to the W. M. U. and Sunbeam Band he has organized a B. Y. P. U. Bro. Chick seems to be well up on pastoral work.

Mr. and Mrs. W. T. Moore went to Liberty Monday to do some shopping.

W. T. Jasper went to Mintonville Sunday.

Mrs. Maude Farris, of Irvine, returned to her home some days ago after spending a week with Mr. and Mrs. J. C. Fogle on the Liberty pike.

John Paul is nursing a broken collar bone. A result of a fall he got some days ago.

Whooping cough is worrying some of the little ones hereabout at present. It is anything but pleasing to see the little fellows go up against it.

The warning we put out some weeks since to candidates to make themselves scarce during the busy season, seems to have had the desired effect. Their visits to this town have been few and far between and when you do happen to meet one he seems to be ashamed or afraid to tell his business. By the way Bill Elmore is the grittiest democrat we have heard of for some time. He is a candidate for magistrate in Jenkins' district that has a republican majority of from 150 to 200. Bill says he is going to beat "Big Foot" John Staton.

Boyd Weatherford is here with relatives.

Mrs. Jessie Stagg and Miss Elizabeth Stagg, have returned to Stanford after a very pleasant stay with relatives here.

In her usual cordial manner Mrs. Smith T. Powell entertained the Current Events Club Friday afternoon at her home on the Liberty pike. About twenty ladies were present and the hours were spent very enjoyably. Ices, cakes, strawberries and mints were served.

Williams & Riffe have recently sold two six cylinder Buicks to June Hocker and T. Carpenter.

S. P. Stagg, of Lexington, has been here the guest of relatives and is now at Elixir Springs.

Miss Marie Floyd has been visiting her sister, Mrs. Smith, near Harrodsburg.

Misses Sallie and Mary Back left Sunday for Bowling Green, where they will attend school.

THE KAISER GETTING SCARED

The Kaiser seems anxious now to submit a peace proposition, while he thinks the submission is good, but he has sinned away his day of grace and there will no terms suggested by him that will be given the least consideration. President Wilson, who has learned by sad experience how utterly unworthy he is of any confidence, regarding treaties and his written promises as only pieces of paper, advises against any discussion with him of peace proposals that does not eliminate him as a factor or make him lose out entirely in his ambitions. When the President was dickering with him he seemed to have gotten the idea that we would not fight and that our people would not put up the money to prosecute the war. But the fact that some ten million men responded to the call to register for the army and that when two billion were asked of the people as a loan to the government, three millions of them responded and overscribed the amount a billion, has shown the bloody tyrant how mistaken he was and he wants to get out of the war he started before this country makes him go like the czar of Russia and the King of Greece. The open season for the abdication of kings is on and those who do not make a virtue of a necessity and get up and get are going to be made to do so p. d. q., a fact which no one better recognizes than the murderer of women and children.

Brer Breckinridge, of the Lexington Herald, continues to lambast the Courier-Journal, Congressman Swager Sherley, the devil and Tom Walker because the cantonment was not awarded to Lexington, but to Louisville instead. We are really sorry the Blue-Grass city lost out, for many and divers reasons, but we can see nothing that can be gained by keeping up the fight, except that it gives one of the "little Tooley street-ers" opportunity to get much accumulated bile out of his system, though a dose of Crab Orchard salts or Pluto Water would have accomplished the result quicker and easier than even the last effort of four good columns.

The handwriting is on the wall. The divine right of kings to rule and their assumed partnership with God Almighty have got to go. The Czar of Russia and the King of Greece have already gone. The King of Spain seems tottering on his throne and if the Kaiser is not entirely bereft of brains, he too must see that he is slated to go and that he will not long stand on the order of his going. Democracy is winning all over the world and sending autocracy to the scrap heap.

Patrick Cudahy, the packer, who recently announced his retirement from the business in favor of his sons, is back in harness again. One son has become a Lieutenant in the regular army and another has joined an officers' training camp. There was nothing left for the father to do but to come out of retirement to release them of duty for their country.

To us who know nothing about the game, it seems almost sacrilegious in these parlous times to waste energy, land and money on golf links, which in many cases should be plowed up and the land put in crops to help feed the army and reduce the high cost of living. There are said to be 5,000 links in the country, which require at least 100 acres each, making some 500,000 acres or more. Think of how much food could be raised on those acres and how much profanity, lying, inattention to business, Sabbath breaking and other numerous vices abated, and we are sure that those who do not play the game, at least, will agree with us that morality and economics would be improved by putting the links into production and the players to producing, instead of being destroyers of food, time and money. A learned professor at Yale University estimates that there is daily wasted on golf 8,168,432 food pounds of energy, which if applied to hoeing corn, would produce enough of the grain for 13,941,687,408 muffins. A trial of wasted effort utilized at least till the cruel war is over is repeatedly, but no less urgently suggested.

A small electric storm caused Congress to temporarily adjourn the other day and therefore cut off the interminable and often most useless talk that is constantly being indulged in. The people have been trying to impress on the body the importance of stopping the gabfest and getting down to business without avail. Perhaps this little reminder by a higher power will have the desired effect.

After July 1st there will be no jitney busses in Louisville and the poor folks will either have to take a street car or walk. That form of transportation has had a stormy time in Louisville since it was started some two years ago. It has been fought by every other method of transportation until it has been entirely routed.

Vice-President and Mrs. Marshall have a baby. It was not born in the family, however, but its mother is a chambermaid, whose efforts to make a living for herself and the little thing enlisted the support of Mrs. Marshall, who is almost as proud of the youngster as if it were her own.

Police Commissioner Woods has ordered a thorough probe of the charge that widespread traffic in girls exists in New York. This followed announcement that 700 girls have disappeared since January 1.

Mark Sullivan, writing in Collier's Weekly, says: "There are three men in Congress who are of preeminent ability. They are Swager Sherley, of Louisville, John J. Fitzgerald, of Brooklyn, and Irvine L. Lenroot, of Wisconsin. If Congress were entirely composed of men of the stature of these three, this would be a wonderfully managed country. If half of the members were of their stature, or indeed if there were among the 435 members 10 per cent., or 43, leaders with the ability of these three, Congress would be the ablest parliamentary body in the world. Their ability is composed chiefly of clear thinking and the clear diction which comes from clear thinking—and hard work. They never discuss a subject without going to the heart of it. Their concern is not with prejudice, but with the merits of the case. A book made up of the speeches delivered by any one of these three men during the present session would be a text book of statesmanship." Those of the Interior Journal readers who heard Mr. Sherley's excellent speech here a year or so ago fully agreed with Mr. Sullivan in what he says about him, and, convinced that he is a judge of men, they are willing to sanction what he says about Mr. Sherley's colleagues.

—

A good many convicts play the role of the devil, who when sick a monk would be but when well a devil of a monk was he. When they realize that they are at the end of their ropes they begin to play the religious racket and soon try to leave the impression on the parole powers that all they need to be full fledged angels is wings. Beach Hargis, serving a life sentence for the murder of his father, played the role of a repentant and thoroughly reformed man and so impressed the parole board that with his mother's tears and entreaties, he secured his freedom. It was a great mistake, however, to liberate a character like his, which is totally depraved. He is again at his old tricks of drinking and intimidating people with firearms and former Chairman O'Sullivan, of the Parole Board, has called attention to the state of affairs and asked the reincarceration of the patricide, who better deserved death than clemency. His punishment was far inadequate for the crime and he should be returned to prison never again to enjoy the liberty he so sadly abuses.

Brer Breckinridge, of the Lexington Herald, continues to lambast the Courier-Journal, Congressman Swager Sherley, the devil and Tom Walker because the cantonment was not awarded to Lexington, but to Louisville instead. We are really sorry the Blue-Grass city lost out, for many and divers reasons, but we can see nothing that can be gained by keeping up the fight, except that it gives one of the "little Tooley street-ers" opportunity to get much accumulated bile out of his system, though a dose of Crab Orchard salts or Pluto Water would have accomplished the result quicker and easier than even the last effort of four good columns.

One son has become a Lieutenant in the regular army and another has joined an officers' training camp. There was nothing left for the father to do but to come out of retirement to release them of duty for their country.

After July 1st there will be no jitney busses in Louisville and the poor folks will either have to take a street car or walk. That form of transportation has had a stormy time in Louisville since it was started some two years ago. It has been fought by every other method of transportation until it has been entirely routed.

Vice-President and Mrs. Marshall have a baby. It was not born in the family, however, but its mother is a chambermaid, whose efforts to make a living for herself and the little thing enlisted the support of Mrs. Marshall, who is almost as proud of the youngster as if it were her own.

Police Commissioner Woods has ordered a thorough probe of the charge that widespread traffic in girls exists in New York. This followed announcement that 700 girls have disappeared since January 1.

A small electric storm caused Congress to temporarily adjourn the other day and therefore cut off the interminable and often most useless talk that is constantly being indulged in. The people have been trying to impress on the body the importance of stopping the gabfest and getting down to business without avail. Perhaps this little reminder by a higher power will have the desired effect.

DIDN'T HAVE THE CHANGE

One day this week Judge James P. Bailey was called on to perform a wedding ceremony, which he did in his usual impressive way. The ceremony said, the groom's mind turned to business, and he asked the judge how much he owed him. "I let the happy groom say how much it is worth to be married to a good woman, and make no specified charge," said Judge Bailey, whereupon the fellow asked him if he had change for a dollar. The judge did not have it, but the change was procured by the newly-wed and Lincoln County's judge was able to increase his bank account with two shiny quarters.

Dr. W. B. O'Bannon heard of the incident and was reminded in days gone by of Preacher Middleton, of the South End of Lincoln county, was called on to "say" a marriage ceremony and afterwards was informed by the groom that he did not have a penny, but was welcome to his pistol, which he handed to the man of God. It is needless to state that Rev. Middleton declined the offer.

THE AMERICAN FLAG

The largest American flag in the world is suspended from the top of the Postoffice Department building in Washington and drops 300 feet in the inner court.

During the Revolution, the flag had thirteen stars; in the War of 1812, 15; in the Mexican War, 45, and in the present war, 48.

The famous flag which flew over Fort Sumter in April, 1861, the firing on which was the beginning of hostilities between the states, is preserved in the ante-room of the Secretary of War, in Washington.

The historic flag which floated over Fort McHenry on the morning of September 14, 1814; and which inspired Francis Scott Key to write "The Star-Spangled Banner," is preserved in the National Museum at Washington.

The American flag means more, even in its colors, than some comprehend. The red was chosen to denote defiance and daring, the white purity of purpose and the blue eternal vigilance, perseverance in the fight and justice to all who should acknowledge fealty to the flag.

The American flag is among the oldest of national flags, being older than the present British union jack, the French tricolor, and the flag of Spain, and many years older than the flags of Germany and Italy, some of which, like those of other countries, are personal flags, or those of reigning families.

BRIDE'S FIRST DISCOVERY

Their wedding tour had ended, and they entered their new home to settle down to what they hoped to be one long interrupted blissful honeymoon.

But alas! the young bride's troubles soon began, when she tried to reduce the cost of living with cheap "big can" baking powders.

She soon discovered that all she got was a lot for her money, and it was not all baking powder, for the bulk of it was cheap materials, which had no leavening power. Such powders will not always give the desired results. And because of the absence of leavening gas, it requires from two to three times as much to raise cakes or biscuits as it does of Calumet Baking Powder.

This, eventually, the actual cost to you, of cheap baking powders, is more than Calumet would be.

Cheap baking powders often leave the bread bleached and acid, sometimes yellow and alkaline, and often unpalatable. They are not always of uniform strength and quality.

Now the bride buys Calumet—the perfectly wholesome baking powder, moderate in price, and always uniform and reliable. Calumet keeps indefinitely, makes cooking easy, and is certainly the most economical af-

Go forth and fight, my sons,"

FOR HIS MOTHER-IN-LAW

With a face that vainly endeavored to appear mournful and eyes that strove to produce a respectful flow of tears, Patrick Murphy entered a shop.

"I want ye to tell me," he began, "phwat the custom is for th' wearin' of mourning, the depth of it, I mean?"

"Well," replied the assistant, "of course it varies. If it is a near relative, a band of black on the sleeve or hat, and for a distant friend a black tie is enough."

For some moments Patrick Murphy considered. "Give me a shot lace," he said at last. "It's me wife's moth-

QUIT SENATORIAL RACE

J. A. Brown, of Wayne county, has withdrawn from the race for the Republican nomination for State Senator in the Sixteenth district, leaving the fight between J. H. Newman, of Monroe county, and "Uncle Bill" Allen, of Clinton county.

The decision of Representative Frank White, of Monroe county, not to enter the senatorial race has largely enhanced the chances of Mr. Newman, it is claimed by his friends and supporters. There is said to be a probability that Senator Robert Antel, of Russell county, may get in the race and take up the running where Mr. Brown left off.

Amendments to the Federal Reserve law, designed to strengthen the system by increasing its gold reserves by \$200,000,000, finally were approved in Congress by the Senate's adoption of the conference report on the Glass-Owen bill.

FLAG ETIQUETTE

When Dewey's fleet returned to New York after the Battle of Manila Bay, a Swedish janitor in a large department store hoisted an American flag with the Union down and flew the signal of distress throughout the celebration. A patriotic citizen should make no such mistakes as this, but in displaying flags or bunting should observe certain customs, some of which are as follows:

The proper time for raising or putting out a flag is sunrise or after, never before.

The flag should be lowered at sunset.

A flag should never be allowed to trail or lie on the ground and should always be taken in during stormy weather.

When the flag is raised at ceremonies, everyone present should stand, face the flag and salute with the right hand raised to the forehead.

When the flag passes in parade, spectators should stand, men and boys with hats removed.

When any other flag is displayed with our National colors, Old Glory must always be on the right or above.

As a sign of mourning the flag should first be hoisted to the top of the mast for a moment, then lowered half-way and left half-mast. At sunset the flag should first be hoisted to the top of the mast before lowering to the ground.

The flag should never be used for a cover or in any position where other objects are placed on it.

Flags should always be treated with reverence and carefully put away when not in use.

In draping the flag against the side of a room or building, the blue field should always be towards the North or towards the East.

When the "Star Spangled Banner," recognized as our National Anthem, is played or sung, all should rise and stand until the song is finished. It is proper to face the musicians or those singing, during this ceremony.

When red, white and blue bunting is used for decorating, the red should be at the top.

It is against the law to put any printing or advertising of any kind on the United States flag.

The Type Used In One Year To Publish Endorsements Of Doan's Kidney Pills

Of the many kidney remedies on the market today, none is recommended like Doan's Kidney Pills. Forty thousand benefited people gladly testify in the newspapers of their own towns. Forty-five hundred American newspapers publish this home proof of Doan's merit. The type used in one year to tell this wonderful story would make a solid column of metal twice as high as the world's highest mountain. Placed end to end the lines of type would reach from New York to Chicago. These miles of good words told by 40,000 tongues sound glad tidings to any Stanford sufferer who want relief from kidney and bladder ills. Here's a Stanford case. Don't experiment. Use the remedy endorsed by people you know.

Mrs. W. H. Hill, E. Main St., Stanford, says: "I do not hesitate to endorse Doan's Kidney Pills. I and others in my family have been benefited by this medicine. I felt run down and tired out and had dizzy spells and headaches. There were pains and soreness and a dull ache across my back. Another of the family used Doan's Kidney Pills with so much benefit I tried them and they soon relieved the badache and put my kidneys in good order."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hill had. Foster-Milburn Co., Props., Buffalo, N. Y. 50-1

The guests assembled at the home of Misses Weddle, and went in automobiles to Brown's Springs, the other side of Crab Orchard, where the lunch, a sumptuous one it was, was served.

After spending a short time at Crab Orchard Springs the party returned to Stanford for the picture show and were afterwards entertained at The Princess. The guests were: Misses Faustine Cooper, Nancy Weddle, Anna Floyd, Martha Tucker, Clara Nunnelley, Bobbie Tucker, Nancy Dunn, Leona Baker, Gertrude Tartar, Elizabeth Stagg, Marie Floyd, Lydia Weddle, Susan Blain, Bessie Riffe, Katherine Warriner. Messrs. Dodd Skinner, Arthur Coffey, Alger Weddle, W. A. Brady, Ben Pruitt, Claude Dinwiddie, Ray Murphy, Roger Hicks, John Hicks, Sam McKinney. Mrs. R. P. Anderson, of Ashland and Dr. and Mrs. Chas. Hart were the chaperones.

Lorder, of Ashland, first vice president; Ferd Ott, of Dayton, second vice-president; J. C. Ellison, of Hickman, third vice president; J. W. Gayle, of Frankfort, secretary; J. TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Thedford's Black-Draught will help you to keep fit, ready for the day's work. Try it!

A Frankfort dispatch says that William Jennings Bryan will make a prohibition tour of Kentucky, commencing today in the interest of the Forward League. He will speak in Louisville the night of July 4.

Thousands in New York roared a welcome to members of the Royal Italian Mission yesterday. Responding to the speech made by Mayor Mitchell at the city hall, Prince Udine declared that the city's enthusiasm was a guarantee of victory.

Forty-two Austrians held in jail at Leadville, Col., on charges of evading the selective draft law, were removed by the authorities yesterday after threats to free them had been made by friends and relatives. The prisoners later were held to the Federal grand jury.

Subscription to the relief fund for the New Albany tornado sufferers amounted to \$193,615.83, according to a report made yesterday by John Morris, public accountant, who says that all the funds, with the exception of about \$400 have been properly expended. A book containing the names of all donors will be published.

As a result of rejection by the House of important amendments and of promises by the Senate of compromises yesterday the Administration Food Control Bill now has a fair chance of being finally passed by July 1. It is unlikely that the requisition of mines and manufacturing plants will be included in the bill. Prohibition proposals still form obstacles to its passage.

Millers of Central Kentucky, in session at Lexington, sent to President Wilson yesterday a telegram in which they urged immediate action on pending food control measures, asserting that the wheat market situation in this State was extremely critical, and that unless action looking to relief is taken without delay milling and dependent industries will suffer immeasurably.

The Senate Finance Committee adopted by a vote of 8 to 6, an increase of one-quarter of a cent a pound on second-class postage rates and an additional levy of 5 per cent upon publishers' net profits over \$4,000. A protest was made by representatives of the American Newspaper Publishers' Association, who believed that the committee might reconsider its action today.

SCHOOL TEACHER REGAINS HEALTH

Was Able to Resume Her Work After Tanlac Built Her Up.

SHE GAINED IN WEIGHT, TOO

Mrs. Pauline Rees Hoydon, a school teacher of Gratz, Owen County, Ky., recently had to stop teaching. Her health had failed. She was worried. Finally she tried Tanlac. After an experience of a personal test she tells this story:

"For several months I had trouble with my stomach. I lost my appetite completely. What little I ate caused gas. Lack of sufficient nourishment caused me to become very nervous.

"I never had much faith whatever in Tanlac before I tried it. However, I read so many statements from people who had taken it that I was led to try it.

"I was agreeably surprised. Tanlac gave me a splendid appetite. I gained a few pounds in weight, and then I noticed that my nerves were stronger. In a short time after I began the use of Tanlac I resumed my school teaching.

"I think Tanlac is a good medicine, especially for nervousness and stomach disorders. It helped me more than anything else, and I am confident it will help others, too."

Tanlac can be obtained here at The Penny Drug Store; in Moreland from A. Minks, and in Waynesburg from W. A. Horton.

PROHIBITION KILLED KANSAS

(Contributed)

The grape industry is not the only thing ruined by prohibition in Kansas. In fact, prohibition has killed about every industry in Kansas, excepting the raising of wheat, corn, alfalfa, fruit, live stock, potatoes, peas, cabbage, garden sals, chickens, ducks, geese, horses, mules, and blooded cattle. It busted up quite all our flourishing saloons and beer gardens, and paralyzed many of our prominent gamblers. It absolutely killed the bartenders' union. Where once the thriving saloon sent the clamorous odor of its prosperity out upon the sidewalks and clear across the street, we find nothing but shoe stores, meat markets, clothing stores, grocery stores, dry goods stores and other sordid activities of an unhappy people. Where once you saw the throng of men on Saturday night going joyfully into the rooms, where the doors were locked securely, where there was sawdust on the floor and a merry crowd at the mahogany bar treating all around, and a man could get his salary check cashed and spend it all right on his boon companions, and go enthusiastically home and break up furniture and give his wife a black eye, instead of all these manifestations of a prosperous and thirsty citizenship, as in our saloon days, we see men go quietly into butcher shops and grocery stores and then go home lugging great bundles of supplies for their wives and children—beefsteak for supper, Sunday dinner, etc. Ah! what a sad result of the banishment of saloons. Prohibition has left little of Kansas except her fields factories, schools, stores, pens of fat cattle, her sober, happy and prosperous people. What prohibition has done for Kansas it will do for Kentucky or any other state.—Joplin Journal.

THE VALUE OF SAVING

If the country can be persuaded to save the \$700,000,000 worth of food which, according to agricultural department estimates, is wasted each year, the experience will be useful after the war. We have been so rich that we have not felt the need to be careful, but with the burdens which we assume in entering the world war we shall be compelled to exercise more economy.—Commoner.
